MOLESKINE INTRODUCES NEW MONOGRAM

A flexible graphic that acts as an open platform for creativity

A set of nine modules consisting of the M of Moleskine and eight rounded squares come together to form a grid, evoking the essential design elements of the Moleskine notebook with its rounded corners as well as those of the digital realm. Each module is a

flexible space that can house a wealth of content: the letters of the company name, the colors and configurations of the collections, community creations and multimedia content will all fill the new Moleskine monogram.

A brand in motion

Since our beginnings as publishers of blank pages Moleskine is constantly evolving, rethinking our purpose as facilitators of creativity and self-expression. As well as notebooks Moleskine makes apps, instruments for writing and reading, print-on-demand services, cases that converge paper with digital and bags for carrying around the analog cloud of tools and devices that serve as identity markers.

Playing on this idea, the monogram is adaptable to a variety of formats, media and uses. Organized in a structured grid it brings together these various facets of the brand while maintaining a balance between cohesion and openness, in keeping with the Moleskine values of organization and creativity.

The new monogram presents the brand as designer of open platforms for creativity, communication and sharing. Its aim is to act as a fluid visual icon that communicates the multi-faceted and open nature of the company while unifying its many objects, types of users and brand values.

The monogram and its nine modules will be used as a frame for photo galleries, video sets and social media initiatives, in video billboards and new store openings from July 2013, appearing on new releases from 2014. It will take on particular importance in the Writing, Travelling and Reading Collections as well as in Moleskine Stores and on packaging. In this way the monogram becomes a meeting place of analog and digital, more of which the brand aims to open up to aid the creative process.

The logotype remains unchanged apart from a more emphasized roundness to the curves of the letters, creating a proprietary font for the first time in the company's history. Particular attention has been given to the letter M, which becomes the pivot for the whole visual identity.

PACKAGING UPGRADE

Paper-band improvements

- New logo and monogram on the front and spine
- Ivory-colored background, combined with the classic color coding to identify the page layouts
- Clear and detailed product descriptions
- Introducing the B-side: printed contents on the inner face

B-side

Graphic tools, note cards, door hangers and other features appear now on the inner face of paper-bands and other packaging, making them reusable after the purchase.

First introduced in 2013 only on new releases, the B-side is being gradually added to existing product packaging as well.

MOLESKINE: A LEGEND ON THE MOVE

A legendary story

The Moleskine notebook is the heir and successor to the legendary notebooks used by artists and thinkers over the past two centuries: among them Vincent van Gogh, Pablo Picasso, Ernest Hemingway and Bruce Chatwin. A simple black rectangle that held the sketches, notes, stories and ideas that would one day become famous paintings or the pages of beloved books. In the mid-1980s the notebook that Bruce Chatwin nicknamed “moleskine” became increasingly scarce and then disappeared completely. In 1997, a small Milanese publisher brought the legendary notebook back to life, choosing this literary name to revive an extraordinary tradition of creativity and self-expression.

Moleskine today

Today Moleskine is a brand that encompasses a family of nomadic objects dedicated to our mobile identities, versatile tools for both every day and extraordinary journeys: notebooks, journals, bags, apps, writing instruments and reading accessories which complement each other in form and function, forming an integral part of our personalities.

The Analog-Digital continuum

Moleskine objects inhabit the space between analog and digital, allowing users to experience the pleasures and benefits of both mediums without constraints. The *Evernote Smart Notebook* bridges the two by syncing paper to digital, while the *Print on Demand* services complete the circle from the cloud back to paper. Our partnership with leading iOS application *Paper by FiftyThree* allows work created in the app to be printed in a Moleskine notebook, while our collaboration with *MILK Books* allows digitally-uploaded photos to be beautifully presented in a physical *Photo Book*. The simplicity and elegance of the Moleskine notebook experience is brought to iOS, Android and Windows Phone in the *Moleskine Journal app*, while *The Hand of the Architect* and *The Hand of the Designer iPad apps* allow for greater interaction with the sketches and processes of leading professionals.

Contemporary heritage

Moleskine Books

Evernote Smart Notebook

Moleskine has always been synonymous with creativity, providing inspiration for ideas, projects and collaborations. Communities around the world champion the brand through the sharing of images, videos and “hacks” of their notebooks on blogs, social networks and other online platforms. Through cultural initiatives, workshops, events and exhibitions, partnerships are made with up-and-coming and established artists worldwide. *Detour* is a travelling show of special notebooks created by international artists, writers, architects, designers, film directors and musicians, which supports the non-profit foundation *lettera27*. The resulting creative innovations are captured in an online gallery at moleskine.com/detour and also in book form with *The Detour Book*.

Moleskine books reveal and preserve the creative processes of today's leading industry figures. Important architects and studios from around the world share their sketches and thoughts in the *Inspiration and Process in Architecture* series, which features the likes of Zaha Hadid, Wiel Arets and Alberto Kalach. *The Detour Book*, published in 2012, is an archive of contemporary creative thinking, in the making. Other titles celebrate some of the greatest creators of our time by providing insights into their work through drawings, interviews, texts and photographs.

myMoleskine

A dedicated section of moleskine.com offers those users who love to share their Moleskine creations online a platform for their images, videos and templates. Once registered they can create a profile and upload their content. The special *Moleskine Hacks gallery* displays work by people who personalize or “hack” their notebooks, or even combine them with other analog and digital devices. Fans of Moleskine can also download page layouts to customize their notebooks. Beside MSK 2 it's an online tool for transferring digital content to the notebook. As well as musical staff paper and other layouts, 3D templates are also downloadable, which when printed and assembled become cases, pen holders and paper toys.

Keeping in touch

Every month Moleskine sends email newsletters to its followers about notable news, launches, events, new videos and limited editions. Subscription to the newsletter is online at moleskine.com. For its trading partners, Moleskine offers a variety of specific communication services including guidelines, media kits, news previews, high resolution photos, press releases, videos for circulation online and for screening in-store and media overviews by topic or region. For further details, contact the head office in Milan.

Moleskine Application

The quality ethic

An appreciation of aesthetics and the quest for quality are the primary aims of Moleskine. We are convinced that a company's ethics are first and foremost bound to what it creates and how it does so. From concept to design, from choice of materials to final production, we see quality as a careful and attentive vision of the whole and the details. One of the main concerns of the Moleskine design team is to make objects that will last using a combination of automated and manual processes and subjecting them to rigid quality control procedures. If, despite our best efforts, we have overlooked a defect of any kind, an enquiry form is available online at moleskine.com/quality. We will replace any defective item free of charge.

Built to last, naturally

It is our privilege to make objects that by their nature don't rely on fashion trends, instead fulfilling their role as cherished companions to be preserved. Our attachment only grows over time, because a Moleskine object is imbued with the thoughts and feelings of its owner. Still, any object made of paper or other materials has an impact on the environment. Moleskine is actively engaged in taking every possible precaution to minimize this impact. Moleskine notebooks are made with environmentally friendly acid-free paper. Moleskine is FSC-certified (*Forest Stewardship Council*), for responsible management of the world's forests. Moreover, everything Moleskine produces is PVC-free and compliant with *California Proposition 65*, one of the most stringent regulations in the world regarding the safety and environmental impact of materials.

A collection of Moleskine planners and notebooks is scattered on a white marble surface with grey and red veining. The planners are in various colors: black, red, and blue. Some are closed, while others are open, showing handwritten notes. A black pen and a black pencil are also visible. A semi-transparent teal box with white text is overlaid on the bottom left of the image.

A top-down view of various Moleskine products on a white surface. In the center is a 'Watercolour Album' with a black cover and a yellow and pink spine. To its left is a black 'Sketchbook' with a yellow spine. Below the sketchbook is a black 'Notebook' with a yellow spine. To the right of the sketchbook is a black 'Portfolio' with a yellow spine. In the bottom right corner is a black 'Black Page Album' with a purple spine. A watercolor palette with a brush is in the top right. Several colored paper scraps (orange, yellow, green, purple) are scattered around. Two black pencils are in the bottom right. A teal semi-transparent box with white text is overlaid on the bottom left.

ART & OFFICE

Everything you need to capture
your best ideas and inspirations, and
to organize your work notes and projects.

ART PLUS

A series of paper tools covering a wide range of uses for the graphic arts and professions. The distinctive trait of this line is the ample choice of papers and formats.

A description of the types of papers used, the products that carry them and the drawing tools they support.

70 g/m² - 47 lb paper

The classic, ivory-colored, Moleskine notebook paper, suitable for dry media, pencils, ballpoint pens.

Products: Music Notebooks

100 g/m² - 68 lb paper

A heavier version of the notebook paper. Appropriate for fountain pens and dry media: pencils, charcoal, pastels.

Products: Plain Book

N 120 g/m² - 81 lb sketch-grade paper

Smooth, ivory-colored paper. Ideal for classic sketching and drawing with pencils, charcoal, fountain pens, markers.

Products: Sketch Albums

N 165 g/m² - 111 lb sketch-grade paper

Now pigmented directly in the pulp, this improved process marks an important step forward in the Moleskine sketchbook paper, guaranteeing greater color stability and resistance to eraser and marker use. It supports all dry media, pencils, pastels, charcoal, fountain pens and markers.

Products: Sketchbooks, Japanese Albums, Storyboard Notebooks

200 g/m² - 135 lb watercolor paper

Cold-pressed watercolor paper with cotton for better water absorption on both sides of the page. Suitable for watercolor washes, it supports large amounts of water.

Products: Watercolour Albums

200 g/m² - 135 lb black paper

This multimedia paper is suitable for archiving photos, scrapbooking and creating collages, but it can also be used for drawing with bright-colored pencils, pastels, gel pens and Moleskine fluorescent and metallic inks.

Products: Black Page Albums

NEW

GIFTS & CARDS

Make a gift. Let it be a Moleskine gift.
Choose your theme or passion in a box.
Then find the card that goes with it.
Even when the gift is to yourself.

NOTE CARDS

A unique concept in note card design.
A discreet and personal way to send a message.
Choose the occasion. Pick a color.

Dear Lanna,
My trip seems so long
after 5 cities in the
north of Europe, I
am not sure what
to do. Think
of you all

Fits digital devices

2 front pockets with zipper

Adjustable shoulder strap

A collection of Moleskine bags and accessories on a white surface. In the top left, a black bag is open, revealing a yellow notebook. Next to it is a blue cube-shaped object. To the right is a large, black, rectangular bag with multiple straps and buckles. In the center, a black bag is open, showing a green notebook. To the right of this is a black case containing a pair of glasses. In the bottom left, a purple notebook is visible. In the bottom right, a smartphone is in a black leather-like case, with a pen resting on top of it. The background is a white surface with some faint, colorful geometric patterns and a yellow sheet of paper with a large 'S' and 'V' drawn on it.

BAGS

The original Moleskine bags: black rectangles that carry our thoughts and ideas, just like the notebooks.

A top-down view of various stationery items on a white marble surface with grey veining. There are four notebooks: a yellow one at the top, a purple one on the left, an orange one in the center, and a black one at the bottom left. A black tablet is on the right, displaying a white calendar interface. In the bottom right corner, a small black notebook with a gold-colored page is partially visible. A dark green semi-transparent rectangle is overlaid on the center, containing white text.
