Big Plans Undated Standard Planner

by Brass Monkey and Galison

It's perfect for plotting out all of your important life goals—like the taco places you need to try before you die. Sure, this vintage-inspired, cloth-bound daily planner by Brass Monkey is technically undated. . . but that's really selling it short. It's more like. . . 'un-yearred.' See, we did all of the hard work for you. We've already put in all the dates, the fixed holidays, and tons of extra stuff like daily random holidays (like House Plant Appreciation Day, just for an example), celebrity birthdays, and other bits of trivia. With knowledge like this, you'll be the life of the party that you probably didn't want to go to in the first place. All you have to do is fill in the year and what day of the week each day is on. Simple. So if you want, you can buy this planner today and still procrastinate actually using it until 2054. . . live your life.

- Inspired by vintage library books. You remember what those are, right?
- Features a cloth-bound cover with embossed, gold foil artwork covering the whole. . . well, cover.
- Comes pre-filled with 366 days (336 pages) of random holidays, trivia, and humor.
- Includes an attached black satin bookmark to help you pick up where you left off.
- The book measures 6" wide by 9" tall (and .9" thick)—that's 152mm by 229mm if you're fancy.
- Psst: this is a full-sized counterpart of our mini-planners.

Things I'll Cancel Later Undated Mini Planner by Brass Monkey and Galison

Go ahead, use a pencil. . . because we all know you're to bail on your co-worker's open mic night. We've crammed the same great content (well, most of it, anyway) of our standard-sized planner into a 'mini' version. Bin-go Endure A Wedding Bingo Book

Cribbage In A Box Cribbage Game Set by Brass Monkey and Galison

We like to say that cribbage is the best card game you've probably never heard of—unless you have heard of it, and in that case, we like you already. Sure, it's a classic game - meaning your grandparents probably got mad at each other while playing it - but it's still as fun as the day it was invented. . .in the 1600s. Inside this cribbage set by Brass Monkey, you'll find pretty much everything you need to learn, play, and (hopefully) win the game.

- Includes a foldable wooden game board & 6 metal pegs for scoring.
- Features a uniquely designed deck of cards. I mean, it is a card game, after all.
- Contains an instruction book that explains the game in detail (and even covers a bit of strategy for over-achievers).
- The outer box measures 11" wide by 6" tall by 1.6" deep—that's 280mm by 152mm by 40mm if you're fancy.
- Suitable for two players. So take turns.

I've Venn Thinking by Brass Monkey and Galison

We have more in common than you might think. In fact, that's kind of the point of this game. This Venn diagram-based party game by Brass Monkey is all about finding (hopefully) hilarious similarities between two random (and we mean random) things. Just draw the included red and blue discs to create unexpected pairings (like the Month of February and Tom Cruise*) and then compete with friends to try to find the funniest thing that they both have in common.

*We recommend: Shorter than average.

- Includes 100 red & 100 blue 'topics' to pair together.
- Not to mention 520 different pre-written 'answers.'
- Psst: You also have the option to come up with your own answers (since you obviously think you're more clever than we are).
- The outer box measures 5.8" wide by 3.7" tall by 3.5" deep—that's 147mm by 94mm by 89mm if you're fancy.
- Suitable for 3-8+ players. Go crazy.

Tic Tac Pro Game Set

by Brass Monkey and Galison

Advanced tic-tac-toe is a thing. Well, it is now anyway. Not only is this classic-inspired game by Brass Monkey worthy of a coffee table—it's actually worthy of being played. Instead of every match simply ending in a draw, our version is surprisingly strategic (& fun). The goal is simple—be the first player to use their pieces to complete a line of three like-sized circles—or form a single colored 'bullseye' as a sneaky fourth way to win.

It's easier said than done. . . and honestly, it wasn't even that easy to say.

- Includes 18 painted wood game pieces (9 red & 9 blue).
- Features a stair-stepped gameboard that makes the game as beautiful as it is fun to play.
- The gameboard (and pieces) are constructed out of a durable, heavyweight MDF.
- The outer box measures 9.4" square by 2" deep—that's 238mm by 50mm if you're fancy.
- Comes with game instructions. . .because it would be kind of mean if it didn't.
- Suitable for two players. So take turns.

Cosmic Cards

A Modern Astrology and Tarot Guide

by Maisy Bristol

In *Cosmic Cards*, sought-after tarot teacher and astrologer Maisy Bristol shows us how to read and interpret the star signs and tarot in one combined practice to give us a fresh outlook on life. For years, we have looked solely to the zodiac for guidance. Astrology has long told us that Taurus is a comfort-loving homebody who loves routine, while Gemini is the extroverted social butterfly who craves variety. However, as the universe expands and we become even more multifaceted, surely this blinkered outlook is no longer reflective of the times we live in? By reading astrology through the lens of the tarot, we can uncover how to broaden our minds, smash stereotypes and discover the different facets of each sign's personality to reveal a deeper insight into us, our family, friends and lovers. Accompanied by a beautifully illustrated 78-strong deck, *Cosmic Cards* is a modern mystical toolkit that enhances our understanding of ourselves and others through the wisdom of astrology and tarot.

Author Bio

Maisy Bristol is the founder of Tarot by Maisy and is a sought-after tarot teacher and astrologer who guides individuals towards clarity and self-development. She specializes in offering one-on-one readings that provide her audience the healing tools they need for a deeper understanding of their mental health, relationships, and life choices. Most recently, Maisy developed a comprehensive online tarot course that offers guidance interpreting tarot cards, creating spreads, and tapping into intuition. Maisy's mystical work has been featured in *Town & Country*, *Seventeen*, *POPSUGAR*, *Refinery29*, *Marie Claire*, *New York Magazine*, and more. She is based in Montana, US.

Home Harvest

Your Pocket Guide to Kitchen Gardening

by Bridie Cotter and Tom Gaunt, illustrated by Edith Rewa

Home Harvest: Your Kitchen Garden Guide is a practical, fun and easy-to-read deck of cards that will help you plant and grow your own kitchen garden.

Growing veggies sounds like a daunting task if you've never done it before, but it's actually very simple. Including gardening 101 tips plus instructions for growing vegetables, herbs and flowers, Home Harvest breaks down the basics of growing your own food.

The deck is divided into four sections: Gardening 101, Veggies, Herbs and Flowers. The gardening 101 cards help you start your garden from scratch, offer advice on keeping it healthy and abundant, and introduce you to the common garden enemies with tips on managing them. You will also learn how to entice all the friendly critters needed for a healthy ecosystem. Each veggie, herb and flower card has growing and planting information, plus handy cooking tips and fun facts.

In Home Harvest, the farmers behind Kinsfolk Farm guide you through the process of planting, growing and eating veggies from your very own patch of soil – as simple as that! The card format is perfect for gardening because you can take one card out to the garden at a time instead of lugging a book around.

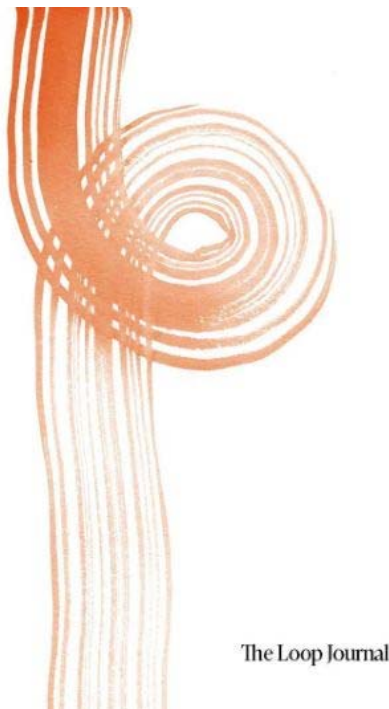

Each card is beautifully illustrated by the phenomenal Edith Rewa, making this a stunning gift for every gardener in your life.

Author Bio

Tom Gaunt and Bridie Cotter are organic vegetable farmers from the Surf Coast of Victoria, Australia. They embarked on their agricultural journey in the spring of 2016, moving from the big smoke to the countryside, inspired by their love of food, cooking and the environment. They grow seasonal vegetables to sell directly to their community. They are regenerative farmers, farming on leased land, focusing on soil health and structure their business to produce the most nutritious and delicious vegetables possible.

Edith Rewa Barrett is an Australian based Illustrator and Textile Designer. Edith splits her time between client commissions (In publishing, stationery, fashion and design), exhibition work and her own label, Edith Rewa.

Color Your Own Tarot

Learn to Read Tarot and Personalise Your Unique Deck
by Lisa Butterworth

This innovative and unique book is a visual guide to the buildings that surround us. Architectural features are pinpointed and labelled on images of buildings so that, unlike with other architectural dictionaries, the reader doesn't have to know the name before looking it up. Clear line drawings and extensive colour photographs illustrate each of the main building types, from forts to churches, stately homes to skyscrapers. The individual structural elements and materials common to all buildings are then explained, whether in Classical, Gothic or Modernist style. A comprehensive glossary completes the book. **This revised edition includes an expanded section on modern structures and materials, as well as the latest styles and concepts from the last ten years.**

The Voice Within

Journaling prompts to connect, inspire and transform

by Nina Karnikowski

Unlock your inner creativity and bring ease, structure and clarity to your life with these journaling prompt cards. This ritual functions as a moving meditation, or a form of self-administered therapy, and is all about the process, not the product.

Do you want to feel connected, inspired, calm, free or creative? Pick a card from the ten categories and follow the journaling exercise to evoke that feeling for the day. Feel inspired by writing a letter to yourself now from yourself in 10 years' time. Set yourself free, by writing a confession to yourself, something you've never admitted to anyone before. Remember, you can tear up the paper afterwards, this is all about the journey, not the destination.

We have 70,000 thoughts spinning through our heads each day: *The Voice Within* will help slow down and sort through those thoughts, making for clearer, calmer, lighter days ahead.

Author Bio

Nina Karnikowski is based in the Australian surf town of Byron Bay. She writes travel stories for newspapers, magazines and websites, and has written about and travelled to over 60 countries. In response to climate change, she is now revolutionizing her travel habits.

The Doomed

Apocalyptic Horror Hunting: A Wargame

by Chris McDowall, illustrated by Helge C. Balzer and Ana Polanscak

A quick-playing, rules-light skirmish wargame of Horror hunting set in a bleak sci-fi world on the brink of impending doom.

Hunger, Hatred, Domination, Oblivion, and Ruin. The world is dying, poised on the brink of falling to one of these great dooms. Factions pursue their own interests, as likely to be the heralds of the world's destruction as they are its saviours. Horrors - monstrous abominations that defy logic, science, and nature - roam the land. Bands of hunters follow bold leaders, seeking out and destroying Horrors, gaining fame as word of their deeds spreads amongst the desperate survivors. Rival bands compete for prestige, clash over ideology, and pose as much of a threat to each other as the Horrors they hunt.

The Doomed is a quick-playing, rules-light skirmish wargame in which small warbands of hunters compete to hunt unique Horrors in a bleak sci-fi world. Scenarios are defined by the Horror being hunted and by the Scene in which the hunt takes place. Each Horror has its own strengths, weaknesses, and tactics, often breaking the rules in unique ways, and must be approached carefully - stealth, cunning, and brute force will all have a role to play. Each Scene, meanwhile, provides a distinct set-up for the scenario and a secondary objective that pits the warbands against each other as well as against the Horror. Campaigns build towards a climax, with hunters gaining prestige and renown, offering access to new, unique options for their warband. In the background, the five dooms also grow in power, threatening to deliver their own climax to (...)

Stargrave: Side Hustle

by Joseph A. McCullough

A 40-card deck of special missions, plots, and objectives from which players can draw to add extra intrigue to their games.

The goal for most of the independent crews operating throughout the Ravaged Galaxy is that one big score that will set them up for life. Such scores are few and far between, so crews typically find themselves taking whatever jobs they can scrounge - anything for a quick credit. Anyone can sell an alien artefact or a set of neural-fuses, but smart captains know that there are myriad ways to turn a profit. . .

This expansion for *Stargrave* consists of 40 Side Hustle cards - missions, plots, and tasks that add variety, depth, and new tactical challenges to wargames in the Ravaged Galaxy. Each card presents a specific objective. . . and the rewards for achieving it. Some of these missions must be revealed, while others are kept secret. Is your crew attempting to insert a data virus into a key system? Locate a political prisoner? Uncover evidence of a secret scientific cabal? Every crew is out to grab some loot, but what's your captain's side hustle?

McCullough's first brush with writing for games was as co-author of *The Grey Mountains* supplement for the *Middle-Earth Role-Playing Game*, and he has remained passionate about Fantasy gaming since, going on to become an award-winning game designer.
