## Sadie by Courtney Summers

A missing girl on a journey of revenge and a Serial-like podcast following the clues she's left behind.

Sadie hasn't had an easy life. Growing up on her own, she's been raising her sister Mattie in an isolated small town, trying her best to provide a normal life and keep their heads above water.

But when Mattie is found dead, Sadie's entire world crumbles. After a somewhat botched police investigation, Sadie is determined to bring her sister's killer to justice and hits the road following a few meager clues to find him.

When West McCray—a radio personality working on a segment about small, forgotten towns in America—overhears Sadie's story at a local gas station, he becomes obsessed with finding the missing girl. He starts his own podcast as he tracks Sadie's journey, trying to figure out what happened, hoping to find her before it's too late.

Courtney Summers has written the breakout book of her career. *Sadie* is propulsive and harrowing and will keep you riveted until the last page.

### The Lost Map of Chaos

A Novel

by Laura J. Burns and Melinda Metz

Memphis "M" Engle is stubborn to a fault, graced with an almost absurd knowledge of long lost languages and cultures, and a heck of an opponent in a fight. In short: she's awesome.

Ashwin Sood is a little too posh for her tastes, a member of an ancient cult (which she's pretty sure counts for more than one strike against him), and has just informed Memphis that her father who she thought was dead isn't and needs her help.

From the catacombs of Paris to lost temples in the sacred forests, together they crisscross the globe, searching for the pieces of the one thing that might save her father. But the closer they come to saving him-and the more they fall for one another-the closer they get to destroying the world. With Laura J. Burns and Melinda Metz's signature plot twists, and uneasy, ever-changing alliances, *I Do Not Trust You* is a thrilling journey at every turn that asks-what would you do to save the ones you love?

[A] white-knuckle read that pushes envelopes and makes the reader question everything. - *USA Today's Happily Ever After*blog on *Sanctuary Bay*

"A quickly captivating account of an outsider's new life inside a world of prestige, pleasure, and pain and her struggle to find acceptance and herself and to survive." - *School Library Journal* on *Sanctuary Bay*

"This mash-up of private-school lit meets mystery novel meets conspiracy theory should keep readers guessing as the horror continues to mount." - *Booklist* on *Sanctuary Bay*

## Fangirl A Novel by Rainbow Rowell

Cath is a Simon Snow fan. Okay, the whole world is a Simon Snow fan, but for Cath, being a fan is her life—and she's really good at it. She and her twin sister, Wren, ensconced themselves in the Simon Snow series when they were just kids; it's what got them through their mother leaving.

Reading. Rereading. Hanging out in Simon Snow forums, writing Simon Snow fan fiction, dressing up like the characters for every movie premiere.

Cath's sister has mostly grown away from fandom, but Cath can't let go. She doesn't want to.

Now that they're going to college, Wren has told Cath she doesn't want to be roommates. Cath is on her own, completely outside of her comfort zone. She's got a surly roommate with a charming, always-around boyfriend, a fiction-writing professor who thinks fan fiction is the end of the civilized world, a handsome classmate who only wants to talk about words . . . And she can't stop worrying about her dad, who's loving and fragile and has never really been alone.

For Cath, the question is: Can she do this? Can she make it without Wren holding her hand? Is she ready to start living her own life? Writing her own stories? Open her heart to someone?

Or will she just go on living inside somebody else's fiction?

"Absolutely captivating." - *Kirkus Reviews* (starred (...))
