Migrations
A Novel
by Charlotte McConaghy

For readers of Station Eleven and Everything I Never Told You, a debut novel set on the brink of catastrophe, as a young woman chases the world's last birds - and her own final chance for redemption.

A will is a powerful thing, and mine has been called terrible. Franny Stone has always been a wanderer. By following the ocean's tides and the birds that soar above, she can forget the losses that have haunted her life. But when the wild she so loves begins to disappear, Franny can no longer wander without a destination. She arrives in remote Greenland with one purpose: to find the world's last flock of Arctic terns and follow them on their final migration. She convinces Ennis Malone, captain of the Saghani, to take her onboard, winning over his salty, eccentric crew with promises that the birds she is tracking will lead them to fish.

As the Saghani fights its way south, Franny's new shipmates begin to realize that the beguiling scientist in their midst is not who she seems. Battered by night terrors, accumulating a pile of letters to her husband, and dead set on following the terns at any cost, Franny is full of dark secrets. When the story of her past begins to unspool, Ennis and his crew must ask themselves what Franny is really running toward - and running from.

Propelled by a narrator as fierce and fragile as the terns she is following, Migrations is a shatteringly beautiful ode to the wild places and creatures now threatened. But at its heart, it is about the lengths we will go, to the very edges of the world, for the people we love.

His & Hers
A Novel
by Alice Feeney

There are two sides to every story: yours and mine, ours and theirs, His & Hers. Which means someone is always lying.

Anna Andrews finally has what she wants. Almost. She's worked hard to become the main TV presenter of the BBC's lunchtime news, putting work before friends, family, and her now ex-husband. So, when someone threatens to take her dream job away, she'll do almost anything to keep it.

When asked to cover a murder in Blackdown - the sleepy countryside village where she grew up - Anna is reluctant to go. But when the victim turns out to be one of her childhood friends, she can't leave. It soon becomes clear that Anna isn't just covering the story, she's at the heart of it.

DCI Jack Harper left London for a reason, but never thought he'd end up working in a place like Blackdown. When the body of a young woman is discovered, Jack decides not to tell anyone that he knew the victim, until he begins to realise he is a suspect in his own murder investigation.

One of them knows more than they are letting on. Someone isn't telling the truth. Alternating between Anna's and Jack's points of view, His & Hers is a fast-paced, complex, and dark puzzle that will keep readers guessing until the very end.

Is Rape a Crime?
A Memoir, an Investigation, and a Manifesto
by Michelle Bowdler

Alice Sebold meets Roxane Gay in Michelle Bowdler's literary debut, telling her story of rape and recovery while interrogating why one of society's most serious crimes goes largely uninvestigated.

The crime of rape sizzles like a lightning strike. It pounces, flattens, destroys. A person stands whole, and in a moment of unexpected violence, that life, that body is gone.

Award-winning writer and public health executive Michelle Bowdler's memoir indicts how sexual violence has been addressed for decades in our society, asking whether rape is a crime given that it is the least reported major felony, least successfully prosecuted, and fewer than 3% of rapists ever spend a day in jail. Cases are closed before they are investigated and DNA evidence sits for years untested and disregarded.

Rape in this country is not treated as a crime of brutal violence but as a parlor game of he said / she said. It might be laughable if it didn't work so much of the time.

Given all this, it seems fair to ask whether rape is actually a crime.

In 1984, the Boston Sexual Assault Unit was formed as a result of a series of break-ins and rapes that terrorized the city, of which Michelle's own horrific rape was the last. Twenty years later, after a career of working with victims like herself, Michelle decides to find out what happened to her case and why she never heard from the police again after one brief interview.

An expert blend of memoir and cultural investigation, Michelle's story is a rallying cry to reclaim our power and right our world.

Michelle Bowdler is the Executive Director of Health & Wellness at Tufts University and, after graduating from the Harvard School of Public Health, has worked on social justice issues related to rape for over a decade. The Paris Hours
A Novel
by Alex George

One day in the City of Lights. One night in search of lost time.
Paris between the wars teems with artists, writers, and musicians, a glittering crucible of genius. But amidst the dazzling creativity of the city’s most famous citizens, four regular people are each searching for something they’ve lost. Camille was the maid of Marcel Proust, and she has a secret: when she was asked to burn her employer’s notebooks, she saved one for herself. Now she is desperate to find it before her betrayal is revealed. Souren, an Armenian refugee, performs puppet shows for children that are nothing like the fairy tales they expect. Lovesick artist Guillaume is down on his luck and running from a debt he cannot repay - but when Gertrude Stein walks into his studio, he wonders if this is the day everything could change. And Jean-Paul is a journalist who tells other people’s stories, because his own is too painful to tell. When the quartet’s paths finally cross in an unforgettable climax, each discovers if they will find what they are looking for.

Told over the course of a single day in 1927, The Paris Hours takes four ordinary people whose stories, told together, are as extraordinary as the glorious city they inhabit.

OUR TEAM
Satchel Paige, Larry Doby, and the World Series That Changed Baseball
by Luke Epplin

An exciting and too-little-known baseball story, the tale of the first team with African American players to win the World Series

The integration of baseball is justly remembered through the prism of Jackie Robinson and the Brooklyn Dodgers. Yet there is a triumphant, and pivotal, narrative from those fraught years that has long been overlooked: the story of the 1948 Cleveland Indians.

This team featured two black players, Larry Doby and Satchel Paige, and in only the second year of integrated baseball, they won a championship. These two men represent different facets of the African American experience. Doby, a young WWII veteran whose parents had been part the Great Migration, integrated the American League only eleven weeks after Robinson. He suffered the same indignities (as he recalled, Nobody said we’re going to be nice to the second black*), but never received the aura of legend that could come only from being first. Paige meanwhile was a legend in his own time, an Alabama gardener’s son who became the greatest pitcher in Negro League history. When signed by the Indians to help lead them to the playoffs, he was forty-two, the oldest rookie ever.

These two compelling figures are at the center of a baseball story that also includes the owner of the Indians, Bill Veeck, the most colorful owner in baseball, and the Hall of Fame pitcher (and complicated human) Bob Feller. For readers of David Halberstam, Bill James, and Roger Angell, here is a new baseball classic.

Where the Light Enters
Building a Family, Discovering Myself
by Jill Biden

An intimate look at the traditions, resilience, and love that built the Biden family, and the delicate balancing act of the woman at its center.

How did you get this number?" Those were the first words Jill Biden spoke to U.S. senator Joe Biden when he called her out of the blue to ask her on a date.
Growing up, Jill had wanted two things: a marriage like her parents’ - strong, loving, and full of laughter - and a career. An early heartbreak had left her uncertain about love, until she met Joe. But as they grew closer, Jill faced difficult questions: How would politics shape her family and professional life? And was she ready to become a mother to Joe’s two young sons?
She soon found herself falling in love with her three "boys," learning to balance life as a mother, wife, educator, and political spouse. Through the challenges of public scrutiny, complicated family dynamics, and personal losses, she grew alongside her family, and she extended the family circle at every turn: with her students, military families, friends and staff at the White House, and more.
This is the story of how Jill built a family - and a life - of her own. From the pranks she played to keep everyone laughing to the traditions she formed that would carry them through tragedy, hers is the spirited journey of a woman embracing many roles.
Where the Light Enters is a candid, heartwarming glimpse into the creation of a beloved American family, and the life of a woman at its center.

Bitcoin Billionaires
A True Story of Genius, Betrayal, and Redemption

Ben Mezrich's 2009 bestseller The Accidental Billionaires is the definitive account of Facebook's founding and the basis for the Academy Award-winning film The Social Network. Two of the story's iconic characters are Harvard students Tyler and Cameron Winklevoss: identical twins, Olympic rowers, and foils to Mark Zuckerberg. Bitcoin Billionaires is the story of the brothers' redemption and revenge in the wake of their epic legal battle with Facebook. Planning to start careers as venture capitalists, the brothers quickly discover that no one will take their money after their fight with Zuckerberg. While nursing their wounds in Ibiza, they accidentally run into an eccentric character who tells them about a brand-new idea: cryptocurrency. Immersing themselves in what is then an obscure and sometimes sinister world, they begin to realize crypto is, in their own words, "either the next big thing or total bulls - t." There's nothing left to do but make a bet.

From the Silk Road to the halls of the Securities and Exchange Commission, Bitcoin Billionaires will take us on a wild and surprising ride while illuminating a tantalizing economic future. On November 26, 2017, the Winklevoss brothers became the first bitcoin billionaires. Here's the story of how they got there - as only Ben Mezrich could tell it.

Reed King's amazingly audacious novel is something of a cross between L. Frank Baum's The Wizard of Oz, Douglas Adams's A Hitchhiker's Guide to the Galaxy, Cormac McCarthy's The Road, and Ernest Cline's Ready Player One.

In Reed King's wildly imaginative and possibly prescient debut, the United States has dissolved in the wake of environmental disasters and the catastrophic policies of its final president.

It is 2085, and Truckee Wallace, a factory worker in Crunchtown 407 (formerly Little Rock, Arkansas, before the secessions), has no grand ambitions besides maybe, possibly, losing his virginity someday.

But when Truckee is thrust unexpectedly into the spotlight he is tapped by the President for a sensitive political mission: to deliver a talking goat across the continent. The fate of the world depends upon it.

The problem is - Truckee's not sure it's worth it.

Drive-Thru Dreams
A Journey Through the Heart of America's Fast-Food Kingdom by Adam Chandler

This is a book to savor, especially if you're a fast-food fan." - Bookpage

"This fun, argumentative, and frequently surprising pop history of American fast food will thrill and educate food lovers of all speeds." - Publishers Weekly

Most any honest person can own up to harboring at least one fast-food guilty pleasure. In Drive-Thru Dreams, Adam Chandler explores the inseparable link between fast food and American life for the past century. The dark underbelly of the industry's largest players has long been scrutinized and gutted, characterized as impersonal, greedy, corporate, and worse. But, in unexpected ways, fast food is also deeply personal and emblematic of a larger than life image of America.

With wit and nuance, Chandler reveals the complexities of this industry through heartfelt anecdotes and fascinating trivia as well as interviews with fans, executives, and workers. He traces the industry from its roots in Wichita, where White Castle became the first fast food chain in 1921 and successfully branded the hamburger as the official all-American meal, to a teenager's 2017 plea for a year's supply of Wendy's chicken nuggets, which united the internet to generate the most viral tweet of all time.

Drive-Thru Dreams by Adam Chandler tells an intimate and contemporary story of America - its humble beginning, its innovations and failures, its international charisma, and its regional identities - through its beloved roadside fare.

What happens when a woman begins to ask herself: Should I have a baby?

Women go through adolescence, menopause, some have a mid-life crisis, some might even have a quarter-life crisis, but there is another time of profound change and it doesn't have a name. Nell Frizzell is calling it The Flux. For most women it happens between the ages of twenty seven and forty but it isn't actually about age at all.

The Flux is characterised by a preoccupation with one major question: Should I have a baby? And of course with the questions that inevitably follow: Do I want a baby? How do I know? Will I ever be ready?

The Flux occurs when a woman realises that the options she's taken for granted throughout her teens and twenties are not available to her for ever. Every decision she makes in this time will have an impact; partner, holidays, job, postcode, savings, friendships - never mind your sense of self - nothing is off limits.

Raw, hilarious and beguilingly honest, Nell Frizzell's account of The Panic Years is an arm around the shoulder and a call to arms. We are none of us alone in this, but we must share our experiences and those of the women around us - as Nell does - to lessen the struggle with one of life's biggest questions.

The Lincoln Conspiracy
The Secret Plot to Kill America's 16th President - and Why It Failed
by Brad Meltzer and Josh Mensch

The #1 bestselling author of The First Conspiracy, which covers the secret plot against George Washington, now turns his attention to a little-known, but true story about a failed assassination attempt on President Lincoln.

Everyone knows about Abraham Lincoln's assassination in 1865, but not everyone knows there was also a conspiracy to kill him four years earlier in 1861, literally on his way to Washington, DC, for his first inauguration. The conspirators were part of a secret society that didn't want an abolitionist in the highest office. They planned an elaborate scheme to assassinate the brand new President in Baltimore as Lincoln's Inauguration train was headed to the Capital. The plot was foiled thanks to famed detective Allan Pinkerton, who infiltrated the group with undercover agents, including one of the first female private detectives in America. Had the assassination succeeded, there would have been no Lincoln presidency, and the Civil War would’ve had a potentially far different ending. This is the story of the secret plot that nearly changed history.
