Coop Knows the Scoop
by Taryn Souders

The morning the human bones turned up buried beneath the slide in the old playground, Coop was busy helping his mom at her café and bookstore, A Latté Books. Coop can’t wait to discover the details about what the police have found.

But then the facts hit too close to home: the remains belong to his grandmother who supposedly left town some forty years ago. Folks thought she got bored with Windy Bottom, but it looks like something much more sinister happened.

When the police pinpoint Coop’s Gramps as the main suspect, Coop and his pals, Justice and Liberty, begin their own investigation. Coop’s convinced the person responsible is any one of a number of eccentric residents of Windy Bottom. The police and Coop’s mother tell him to cease his detective work, but that only fuels Coop’s search to uncover the truth.

It Came from the Sky
by Chelsea Sedoti

This is the absolutely true story of how Lansburg, Pennsylvania was invaded by aliens, and the weeks of chaos that followed. There were sightings of U.F.O.s, close encounters, and even abductions. There were believers, Truth Seekers, and above all, people who looked to the sky and hoped for more. Only…there were no aliens.

Sixteen-year-old oddball Gideon Hofstadt knows this for sure; after one of his science experiments went wrong, Gideon and his prankster older brother blamed the resulting explosion on extraterrestrial activity. To their great surprise, their lie was not only believed by the townspeople…it was embraced.

Soon, they’re going to ever-bigger lengths to keep the ruse going and to avoid getting caught. But as the hoax flourishes, Gideon’s obsession with his own lie threatens all of his relationships. Can he find a way to banish the aliens before Lansburg, and his life, are altered beyond recognition?

Me and White Supremacy: Young Readers’ Edition
by Layla Saad

Awareness leads to action, and action leads to change.

When Layla Saad began an Instagram challenge called #meandwhitesupremacy, she never predicted it would spread as widely as it did. She encouraged people to own up and share their racist behaviors, big and small. She was looking for truth, and she got it . . .

Thousands of people participated in the challenge, and over 80,000 people downloaded her guide to the movement Me and White Supremacy.

Now adapted for younger audiences, ME AND WHITE SUPREMACY teaches pre-teens and teens how to dismantle the privilege within themselves so that they can stop (often unconsciously) inflicting damage on people of color, and in turn, help other white people do better, too.

The numbers show that readers are ready to do this work—let’s give it to them.

Here I Go!
by Katie Clemons

The most well-meaning parents often have a mile-long list of experiences they want to give their kids before they grow up. But there's one thing that no parent can do: tell stories from their children's perspectives. This unique journal allows kids to tell their travel story through their own voice and record their experiences in ways that remind them of not only what happened, but how those events made them feel. As an added bonus, kids can contain and organize their gathered objects such as a ticket stub or postcard as well as write down the important feelings they experience while collecting keepsakes. Whether a child is traveling to Yellowstone, Disney, New York, Europe, or Grandma's house, this is the best journal for every vacation experience.
