Welcome to SPRING!

Before we turn the corner and dive into the new season, we must first take a moment to say thank you. Thank you to the booksellers, teachers, librarians, parents, caretakers, and, ultimately, the children for embracing Twirl with incredible enthusiasm and joy. Your positive feedback fuels our commitment to publishing high-quality books that inspire budding readers to explore, learn, and grow.

This season, we are exceptionally proud to introduce 14 handpicked new titles straight from France. Together, they represent a balanced mix of beloved series like Touch and Explore™ and the Ultimate books, and also fresh new stand-outs that meet and exceed Twirl’s high bar for creativity, interactivity, humor, charm, and developmentally sound content for the many stages of early learning.

Special highlights from the Spring 2020 list include:

- Pull the tabs to reveal a splashy new adventure in *Miki Takes a Bath*.
- *Hooray for Little Fingers!* Count 1, 2, 3, 4, and 5 as little fingers wiggle, pinch, and dance.
- Animal friends invite you to tickle them in the laugh-out-loud sound book, *Make Us Laugh*!
- *Mr. Bear’s Little Numbers* and *Mr. Bear’s Little Shapes*—a favorite character is back in a smaller trim and lower price point!
- And last but certainly not least, here by popular demand, *The Ultimate Book of Horses*, a comprehensive and interactive resource for young equestrians and horse enthusiasts.

Cheers to another season of turning heads and shaping minds!

Whose Baby Is This?
By Stéphanie Babin • Illustrated by Camille Tisserand

Sliding panels of baby animals make a delightful and satisfying format for preschool fun! Each of the 36 panels features a different animal in various habitats: pond, farm, mountains, and more. Baby animals don’t always look like their mommies and daddies, so young children will be challenged to match the babies to their parents. Who is the parent of the cygnet? What does a hoglet’s mommy look like? Each new spread offers clues to the right responses and provides bite-size information about each critter. Slide the panels to reveal the answers. It’s match-and-learn fun for preschoolers!

Warning: Laughter is contagious! The animal friends dare the reader to make them laugh, but the ladybug and the bunny are sure that they won’t laugh, no matter what. The monkey and the crocodile think it’s impossible to make them laugh too. And the same goes for the bear and the wolf. Still, readers can go ahead and try . . . but will they succeed? Kids will giggle and chuckle as they find ways to make the animals laugh in this seriously funny sound book that includes seven big laughs.

Zoe and Zack are best friends. They do everything together! In their latest learning adventure, the two pals show toddlers just how fun counting can be! While Zack juggles colorful balls with his feet or balances them on his head, Zoe makes the numbers with her body. Each number and ball has a grainy texture, which encourages children to learn by touch as well as sound. They can also easily identify numbers with the sturdy, tabbed pages. And what’s more, each spread shows what each number looks like on dice and when counting with fingers. A great addition to a toddler’s library of early concept books!
