Pretty Dead Girls

Monica Murphy

From *New York Times* bestselling author Monica Murphy comes a chilling, intricate mystery perfect for fans of *We Were Liars* or the *Pretty Little Liars* series.

Beautiful. Perfect. Dead.

They're arranged in a particular way. Their faces turned at the most flattering angles, their designer clothes immaculate, as immaculate as their carefully made-up faces. Only the slash of blood across their necks mars the perfect surface. Only the vacant stare in their eyes indicates they're dead.

The most popular students in school are going down, and queen bee Penelope Malone is terrified she's next. So what's a girl to do? Conduct a little serial killer research, of course. Thanks to the help of the nerdy yet cute boy from English class who volunteers to help her, she becomes obsessed with all things related to murder. All while she's trying to stay one step ahead of the brutal serial killer on the loose.

But this killer won't be satisfied until every beautiful, popular girl in the senior class is dead—especially Penelope. And the killer is closer than she thinks...

New York Times, *USA Today*, and international bestselling author Monica Murphy is a native Californian who lives in the foothills below Yosemite with her husband and three children. She's a workaholic who loves her job. When she's not busy writing, she also loves to read and travel with her family. She writes new adult and contemporary romance and also writes romance as *USA Today* bestselling author Karen Erickson. <http://monicamurphyauthor.com/>

Risen

Cole Gibsen

All the romance of *Twilight* or *Vampire Academy* with an emotionally compelling ensemble of characters and a high-stakes plot, *Risen* is the perfect new vampire obsession.

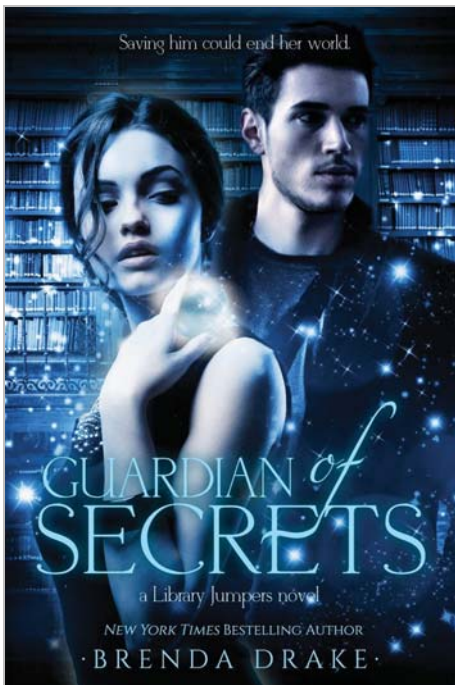

When vampires are at war . . .

No one is safe.

Charlotte "Charlie" Houser discovers how vulnerable she is when she searches for her aunt. Drawn into a shadowy world she didn't know existed, is it really surprising to learn her entire life has been a lie? Heck, it's just another "untruth" to add to the list. Right up there with vampires. Because, yeah, they *do* exist.

As the key pawn in the raging war for America's Heart, Charlotte's only chance at survival is picking the right ally. But once allegiances are made, the side she chooses may be the one who wants her dead the most.

At seventeen Cole found herself homeless with only a beat-up Volkswagen and a bag of Goodwill clothing to her name. The only things that got her through the nights she spent parked in truck stops and fields were the books she checked out from the library along with her trusty flashlight. Because of the reprieve these books gave her from her troubles, Cole vowed to become a writer so she could provide the same escape to readers who needed a break from the reality. <http://www.colegibsen.com/>

Guardian of Secrets

Brenda Drake

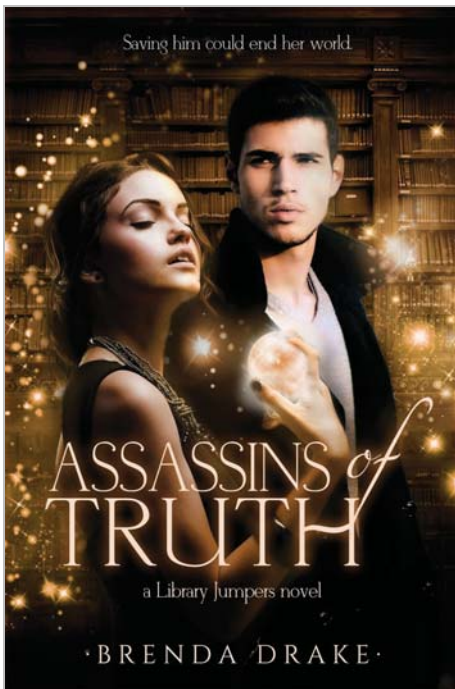

Fans of *Cinderella's Dress* and Cassandra Clare will love this refreshing tale of a girl who discovers a different realm hidden inside the world's most beautiful libraries.

Saving him could end her world.

When the Wizard Council sends Gia Kearns to the small town of Branford, Connecticut, she thinks life in hiding with her family, friends, and Arik in tow won't be all that dreadful. But she was wrong. Nick struggles to control his growing powers, Deidre and Pop are getting close, and a neighbor girl captures Arik's attention. Jealousies and mistrusts arise within the tight group, making life in the idyllic East Coast town anything but charming.

As Gia and Nick jump to some of the most stunning libraries in search for the remaining Chiavi, a new threat arises within the libraries. During one of their searches, Gia trips a trap door in one of the libraries, sending her and Bastien to a wasteland full of danger and secrets. To return to her family and friends, Gia will have to make a sacrifice, one that will cost her someone she loves.

Brenda Drake grew up the youngest of three children, an Air Force brat, and the continual new kid at school. Her fondest memories growing up are of her eccentric, Irish grandmother's animated tales, which gave her a strong love for storytelling. So it was only fitting that she would choose to write stories with a bend toward the fantastical. When she's not writing or hanging out with her family, she haunts libraries, bookstores, and coffee shops, or reads someplace quiet.

Assassin of Truths

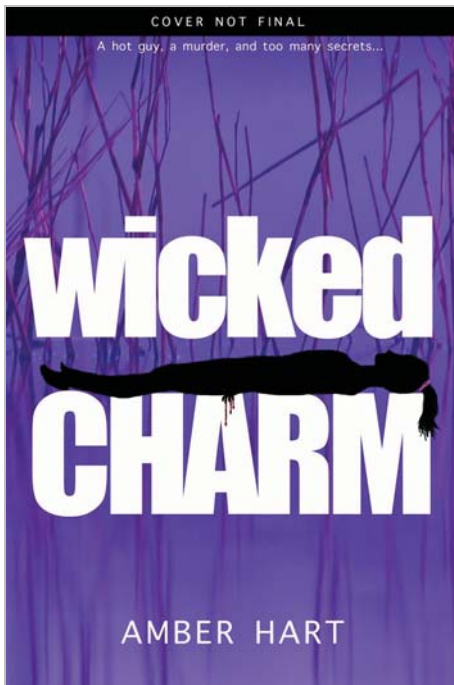

Brenda Drake

A fantastic ending to the Library Jumpers series from *NY Times* bestselling author Brenda Drake, about a girl who discovers a different realm hidden inside the world's most beautiful libraries.

The gateways linking the great libraries are no longer safe. Now the human world is experiencing violent attacks by unknown creatures as Conemar, with a compelled Nick by his side, readies his crazed army to rise against the Wizard Council and the Mystik League to take over both the Mystik and human worlds.

In the safety of a hideout in Ireland, Gia prepares herself for the great battle. With Arik and the other Sentinels' help, she locates the rest of the Chiavi within the libraries and sets out to destroy the Tetrads. The journey is harrowing, and Arik tries to reconnect with Gia, but her conscience stops her from betraying Bastien, even though her heart screams for Arik. When Conemar and his men catch up to them, Gia must fight Nick to the death or give up both worlds and everyone she loves.

Wicked Charm

Amber Hart

The haunting southern vibe of *Beautiful Creatures* meets the thriller of *Ten* in this romantic page-turner.

They say nothing good comes from living in the Devil's swamp.

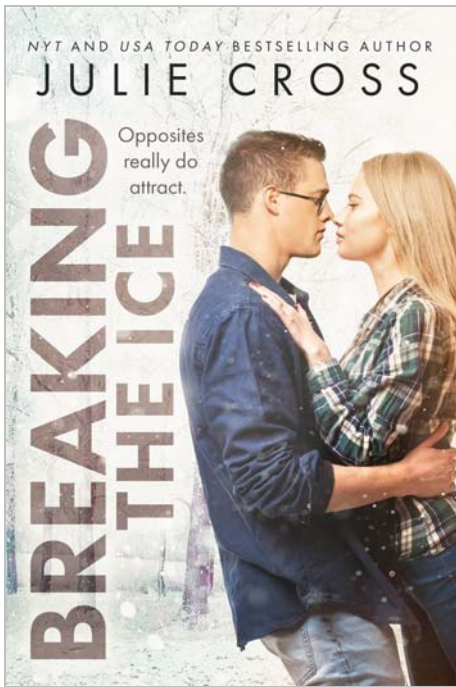

Willow Bell doesn't think moving to the Okefenokee is half bad, but nothing prepares her for what awaits in the shadows of the bog, or for the hot boy next door, who might just be the trouble people speak of.

Beneath his wicked sea-blue eyes and the allure that draws girls to him, Beau Cadwell is sinister to the core. Where Beau goes, chaos follows. *His lips are full of twisted grins and lies*, the girls say. *He's evil in disguise*, warns Gran.

It isn't until girls wind up dead in the swamp that Willow wonders if maybe Beau's more frightening than she can handle. His riddles tell her that he's someone to be wary of, but his touch tells her that she can trust him. Problem is, which is true? It's hard to tell with a boy like him.

Amber Hart lives in a small cottage on the Florida coastline with family and a plethora of animals she affectionately refers to as her urban farm. When not reading, she can be found writing, daydreaming, and drinking too much caffeine. She's the author of the Before & After series and the Untamed series.

Breaking the Ice

Julie Cross

The second book in the Juniper Falls series from *NY Times* and *USA TODAY* bestselling author Julie Cross, perfect for fans of Miranda Kennealy and Abbi Glines.

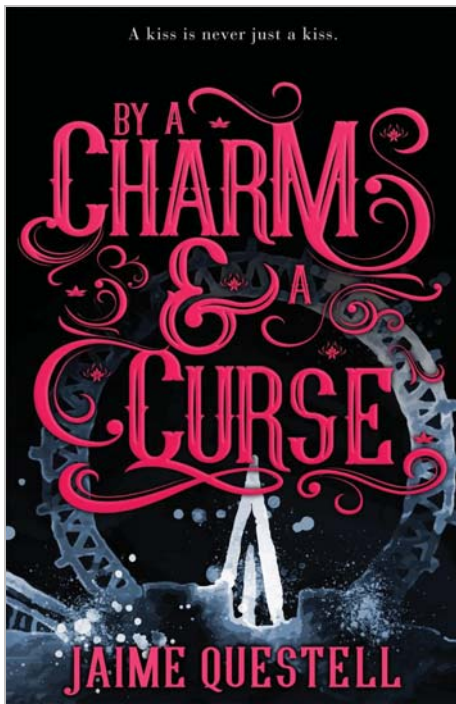

Haley Stevenson is pretty, popular, cheer captain, the princess of Juniper Falls, and voted most likely to get things done. Haley might appear to have rock-solid confidence, but her less-than-stellar GPA tells otherwise. Haley's determined to turn things around this summer by acing the Civics class she's been forced to repeat. Angsting over ex-boyfriends is a thing of the past—in fact, Haley's sworn off all dating until college because the options in Juniper Falls are narrowed down to guys she's known her entire life.

Unlike Haley, Fletcher Scott prefers to keep a low profile around Juniper Falls. In fact, he was fine with his mediocre status on the hockey team. That is, until Coach put him in during the state final last season for a whopping thirty seconds. With the tension on the ice combined with Haley Stevenson's gorgeous legs visible from the seat in front of him, it's possible he won't survive the summer. Not as Fletcher Scott, invisible guy, anyway. Not with Haley constantly talking to him, and making him glittery invitations to join her study group.

If he were a regular guy, maybe Fletch might consider asking her out. But he's not a regular guy. Even Haley can see that right away. There's something different about Fletcher Scott. Something that makes her want to work hard to break down all his guarded walls despite her pact to steer clear of local guys.

Julie Cross is a NYT and USA Today bestselling author of New Adult and Young Adult fiction, including the Tempest series, a young adult science fiction trilogy which includes *Tempest*, *Vortex*, *Timestorm* (St. Martin's Press).

She's also the author of *Letters to Nowhere* series, *Whatever Life Throws at You*, *Third Degree*, *Halfway Perfect*, and many more to come!

By a Charm and a Curse

Jaime Questell

The Night Circus meets Tim Burton in this enthralling debut.

LeGrand's Carnival Fantastic isn't like other traveling circuses. It's bound by a charm, held together by a centuries-old curse, that protects its members from ever growing older. Seventeen-year-old Emmaline King is drawn to the circus like a moth to a flame...and unwittingly recruited into its folds by a mysterious teen boy whose kiss is as cold as ice.

Forced to travel through Texas as the new Girl In the Box, passing out fortunes and searching for the poor soul she can transfer the curse to with one frosty kiss, Emmaline begins to fall for the quiet carnival carpenter Ben Singer. Ben is just as desperate to start a life outside the carnival as Emmaline is to escape her destiny—but giving in to their undeniable attraction means Ben's fate would be sealed.

Breaking the curse seems like their only chance at happiness—but no curse means no charm, either, dooming every circus worker they've grown to care about in the process.

Jaime Questell is an author of young adult fiction, working by day as a graphic designer. Jaime lives with her husband, kids, and neurotic dogs in Houston, where, when she's not writing or reading, she can often be found baking cakes tall enough to require building permits. <http://jaimequestell.com/>

Tarnished

Kate Jarvik Birch

In this sequel to *Perfected*, Ella has escaped to Canada, but is now trapped in a refugee house for pets, the genetically engineered girls bought and sold as companions.

Ella may have escaped to Canada, but she's hardly free. Stuck in refugee housing for liberated pets, she's just as trapped as she was at the congressman's house—only now she has to live without Penn. But she's determined to get out. And to make matters worse, there are rumors circulating that pets like Ella are turning up dead all over the U.S., not to mention that she might be to blame. When her old acquaintance, Missy, shows up in Canada, the two of them set off together, thrusting them back into the dangerous life they just left behind. Now, they must navigate the seedy world of the black markets to uncover the dark secrets that the Kennels have been hiding, and rescue the boy she loves. But even after she's reunited with Penn, Ella still faces the near impossible task of overturning the legislation that has imprisoned her. If she's not successful, she—and her fellow pets—might all end up dead.

Unraveled

Kate Jarvik Birch

Fans of Kiera Cass will love this gritty, satisfying final book in the Perfected series by visual artist and author Kate Jarvik Birch.

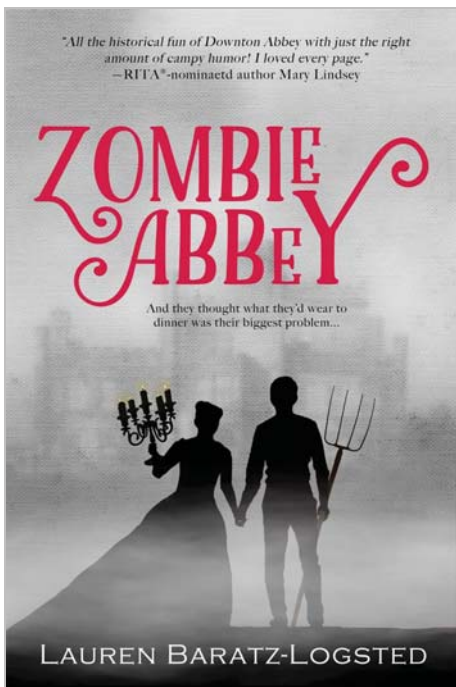

Ella isn't anyone's pet anymore, but she's certainly not free.

After exposing the dark secrets about NuPet's breeding program, forcing them to repeal the law that allowed genetically modified girls to be kept as pets, she thought girls like her would finally be free. But she never dreamed that it would backfire. NuPet may have convinced the public of their intentions to assimilate pets back into society, but Ella knows it's a lie.

They aren't planning mass rehabilitation... they're planning a mass *extermination*.

Now, with the help of a small group of rebels, she's set on finding a way to bring down NuPet for good. But when her group gets implicated in a string of bombings, it becomes clear that none of them are safe—not her, not Penn, not even his family. And with the possibility of a spy planted somewhere in her group, there's no way to know whom she can trust. If she can't untangle the web of blackmail and lies that extends far beyond NuPet's reach, she won't just lose her chance at freedom, she'll lose everyone she loves.

Zombie Abbey

Lauren Baratz-Logsted

Fans of *Downton Abbey* or *Pride and Prejudice* and *Zombies* will love this campy mash-up of historical and paranormal genres by bestselling author Lauren Baratz-Logsted.

For as long as the pastoral village of Porthampton has existed, everyone has known his or her place. There's upstairs, downstairs, and then there are the villagers who tend the farms. But when a farmer is killed in a brutal and most unusual fashion, and then more deaths rapidly follow, it soon becomes apparent that all three groups will have to do the unthinkable: work together, side by side, if they want to survive the menace. Even the three teenage daughters of Lord Martin Clarke, who previously thought the greatest threat to their way of life was in the form of an entail, must do the unthinkable and work with the farmers to take down the zombie horde. Lady Kate, paired with the handsome stable boy Will Harvey, discovers that if they don't work together, their ancestral home of Porthampton Abbey just might turn into *Zombie Abbey*.

Lauren Baratz-Logsted was a bookseller and buyer for eleven years before deciding to take a chance on herself as an author. She's since had more than twenty books published for adults (*Vertigo*), teens (*The Twin's Daughter*) and children (*The Sisters 8* series, created with her husband and daughter). She's published a few ebooks as well, including a comedic romance for adults, *The Bro-Magnet*. She lives in Danbury, CT, with her husband Greg and daughter Jackie.

But Nolan Storm, mysterious leader of the True Borns, has his own agenda: by leveraging Lucy's connections, he intends to infiltrate the powerful Upper Circle. When Storm backtracks on his promise to rescue Margot, Lucy takes her fate into her own hands. With the help of a new but mysterious friend, Alastair – and one spitting mad True Born bodyguard, Jared Price, who is his own world of complications – Lucy sets off for Russia, with its whispered rumors of Plague Cure.
